

Meat presentation Green FSV

LED lighting suitable for meat presentation on all presentation areas for natural colour reproduction and attractive lighting of the products. Shelf with support grating as well as stainless steel bar and meat hooks for meat hangers.

- **Design:** Stainless steel on the outside and inside, all visible sides polished. Inner well welded tight in a hygienic design with deep-drawn condensate drain HD 30, full-perimeter hook-in rim. Side windows made of insulating glass.
- **Operator side:** Hinged doors with viewing window made of insulating glass – reflective sheet metal on inside; height-adjustable base deck to be hooked in with a hook-in rim.
- **Customer side:** Front glass window made of insulating glass; glass cover folds up with gas pressure; insulating glass edges, imprinted black.
- **Refrigeration system:** Large, coated fin coil evaporator with circulating air, can be folded up for cleaning. Low-voltage fans, enabling hazard-free rinsing of the evaporator, fans and inner well with the hand spray. Control unit with digital temperature display including speed control of the fans, as well as on/off switch. Removable display for installation in the front of the unit (2 m cable).
- **Self-contained:** Fully automatic defrosting and condensate evaporation. Forced air circulation refrigeration unit in compressor compartment below, easily accessible for service purposes.
- **Remote refrigeration:** Expansion valve installed for R134a, connection lines lead out downwards. Condensate drain required on-site or condensate tray as an option.
- **Air temperature:** +2 °C
- **Product:** 3M1
